

Road Report for January 2020

This Winter has been a little different than most. We have been out salting, and ashing the roads, but not all that often. It's the end of January, and we haven't even had to plow any snow? We have been working mostly on our dirt roads, Cleaning the ditches, filling holes, and spreading stone over muddy spots.

Potholes were filled with coldpatch. Both of our Ford F550's were serviced, and we had a couple calls for trees down on the roads.

The salt building was restocked:

Approximately 200 tons of salt

Approximately 90 tons of anti-skid

Some minor repairs were made on the equipment.

Road Report for February 2020

February has been an unusually warm month. We have been out salting and ashing the roads only a handful of times. We have been cleaning ditches, patching holes and trimming trees. We had only one call out from 911 for a tree down. The police car was serviced. And some minor repairs were made on the equipment.
